

GlutenTox® Pro

Test ingredients, finished products and surfaces for gluten contamination with GlutenTox Pro

For facilities that produce both “traditional” and gluten-free items, ensuring that the manufacturing ingredients and environment are free from traces of gluten is a top concern. Accordingly, **GlutenTox Pro** is designed to detect gluten and comes with everything you need to conduct **25 tests**.

GlutenTox Pro is:

- ◆ **Accurate:** G12 antibody detects gluten from all toxic grains; no false positives
- ◆ **Flexible:** Adjustable to detect as little as 5ppm gluten
- ◆ **Quick response:** A reliable answer in less than 20 minutes
- ◆ **Easy:** No special equipment required; everything is included in the kit
- ◆ **Reliable:** Shelf-stable and long-lasting
- ◆ **Cost efficient:** competitive pricing and volume discounts available

GlutenTox Pro test strips can test foods, liquids and surfaces. No additional swabs needed. Testing just surfaces? We recommend GlutenTox Pro Surface.

Contact us to learn how GlutenTox Pro can be used to keep your products – and customers – safe.

Looking for more test kits? Also available:

AlerTox Sticks → Rapid onsite kits for milk, egg, fish, soy, and other allergens

5-in-1 Water Test → Quickly test water for pH, nitrites, nitrates, & more

oleotest → Test for polar compounds to keep your oil fresh
